About us

Solo's JSBM is proud to announce a unique programme which offers both individual musical instrument instruction alongside an opportunity to important, ongoing exposure to the English, German or Japanese language.

Each 1/2 day session is an interesting mix of music instruction, practice and being exposed to music appreciation through story, games, puppetry plus introduction to well-known classical music listening.

With a maximum of 4 children per session, your child will benefit from a generous adult/ child ratio.

The music teaching will be undertaken by a highly talented and professional husband and wife team who already run a successful music school within the cosy SOLO building in Sai Ying Pun.

The English element will engage children in hands on learning and activities which also have a proven track record. It will be run by an experienced native English speaker, former HK school Principal.
